

RICHEL ANTHONY C. BALILI

Full-Stack Developer

richelanthony.balili@gmail.com • +63 950 520 8777 • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 2 years of experience building and maintaining responsive web applications, eCommerce platforms, and internal workflow tools. Proficient in Vue, ReactJS, NodeJS, Laravel RESTful API development, and database management, with hands-on exposure to agile development methodologies and AI-assisted tooling. Collaborative and communicative by nature — comfortable working in distributed team environments, open to constructive feedback, and eager to grow under mentorship while contributing to high-impact digital transformation initiatives

SKILLS

Frontend Development: React.js, Next.js, Vue.js, JavaScript, TypeScript, Responsive Design, UI/UX best practices, Cross-browser compatibility, Tailwind CSS, jQuery

Backend Development: Node.js, Express.js, PHP, Laravel, CodeIgniter, RESTful APIs

CMS & eCommerce: WordPress, WooCommerce, Shopify

Data & DevOps: MySQL, PostgreSQL, MongoDB, Git, Vercel, Render, Docker, Supabase

Integrations & Tools: Postman, n8n, Make, OpenAI, Claude, Gemini, Linux

PROFESSIONAL EXPERIENCE

Mid Level Web Programmer / Full-Stack Developer | **Proweaver Inc.** *December 2024 – Present*

- Awarded Top Performer twice (November 2025 and February 2026) with a 95+ KPI score, ranking among the highest-rated developers on the team
- Delivered production-ready web applications for US-based clients handling requirements gathering, development, testing, and deployment end-to-end
- Implemented responsive, user-friendly interfaces by translating client design requirements and mockups into functional, cross-browser compatible frontend pages using React.js, Vue.js, and Tailwind CSS
- Supported backend development by building and integrating RESTful APIs, implementing server-side logic, and contributing to data handling and application security across multiple client projects
- Integrated payment gateways (PayPal, Stripe, Square, Authorize.Net), enabling secure online transactions while following best practices for data protection and optimization
- Assisted in database management tasks including catalog management of 200–1,000+ SKUs across WooCommerce and Shopify, maintaining accurate listings, pricing, inventory, and product data
- Helped debug, troubleshoot, and resolve both frontend and backend issues, and implemented feature updates and minor enhancements through QA-informed revision cycles
- Developed internal workflow automation tools, reducing manual coordination steps for the operations team
- Properly documented work and wrote clear code comments, following development processes to ensure seamless collaboration in a distributed, agile team environment
- Adopted AI-assisted development workflows accelerating code reviews and reducing per-cycle debugging time

Junior Software Engineer Intern | **Alphaus Inc.** *February 2024 – March 2024*

- Contributed to a web-based data ingestion system processing continuous streams of client cloud-cost transactions for financial analysis
- Gained hands-on exposure to production-grade Go backend services and cloud-native data pipelines in a fintech environment

PROJECTS

Flight Booking System

- Developed a full-stack online travel platform enabling users to search real-time flight availability, compare options, and complete bookings end-to-end
- Integrated TravelPro API for live airline data and Xendit for secure payment processing, built on a React frontend and Laravel back end

PERSONAL PROJECTS

Boarding House Finder

- Designed and built a centralized web platform helping students and workers in Cebu City discover and filter boarding houses and apartments
- Architected full-stack solution with React.js (frontend), Express.js (backend), and PostgreSQL (database) featuring structured search, listing management, and user authentication

EDUCATION

Bachelor of Science in Computer Engineering

2020 – 2024

Bohol Island State University – Main Campus

CERTIFICATIONS

Introduction to AI and AI Prompting

April 2026

Proweaver - Cebu Business Park, Cebu City
